B: Read the following paragraph and answer the questions: (2.5 points). L.2, workbook, P.28

The word 'dictionary' comes from the Latin 'dictio' ('saying'). There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words. Dictionaries which explain what words mean give a clear 'definition' of them. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose.

46-When do we use technical dictionaries?

47-What does IPA stand for?

48-What does they in line 7 refer to?

49-All types of dictionaries have the same usage. true ☐ false ☐

50-We can meet all our needs just by using dictionaries of biography. true ☐ false ☐

## AUDIO SCRIPTS

### LISTENING ONE:

A: Are you ok?

B: I'm thinking about something.

A: What's wrong?

B: I've saved some money to buy a new mobile phone but one of my friends is in trouble and needs some money.

A: What would you do if you were in my shoes?

B: What is his problem?

A: I could tell you about it if it weren't a secret. But it's an emergency.

B: Ok, if I were you I would give him the money. A friend in need is a friend indeed.

### LISTENING TWO:

The best teacher I've ever had was Mr. Lambert my French teacher. He was short with dark hair, a thick beard and a big smile. He was a very good teacher because he always brought so much energy to the classroom. His classes were never boring because he was always active trying to find new methods to communicate ideas. Because he taught French, English was not allowed in class so we often had to demonstrate the meaning of new words through gestures and acting.

### LISTENING THREE:

What is the best way to study? First of all it's a good idea to have some kind of plan or timetable. This could be for a week or a longer addition timetable for an exam from one month to six months. If you are studying for an important exam, it is important to think long term. Draw a timetable but revise it often. Next, think about your environment. Make sure the place where you are going to study is comfortable with enough light, not too hot not too cold. Make sure there are no distracting noises around such as television. If you think you concentrate better listening to music, experiment and see if it is really true. Some people really do seem to work better with music in the background specially classical music.

### LISTENING FOUR:

There are only a few scientists and adventures who are famous all around the world. During their lives scientists and adventures are looking for new methods to develop science and help people. Interesting to know some of them are Iranian such as Avicenna, Razi, Toosi, and Dr. Hessabi. One of these famous Iranian scientists is Professor Majid Samiei. He is famous for doing lots of experiments, research, and studies. He also published lots of books in the field of medicine especially in surgery.
