۴	<b>Reading 1:</b> متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید. Cell phones are one of the world' s greatest inventions. They keep us in touch with friends and family and can be life savers in an emergency. Although they can be found everywhere, they are still new to society and people should learn suitable behavior when they use them. Here are some suggestions for using the cell phones politely. Your phone doesn't have to be on all the time and you don't always have to answer it immediately. Avoid taking calls or texting when you are engaged in a face -to-face conversation. During the time that you are attending an important business meeting, or in a party with friends and family, try to hide your mobile. Placing your phone on the table or desk sends the clear message that they are not so important for you. Texting or talking on the phone during a formal business meeting is highly unacceptable and rude. It is polite and responsible to turn off your cell phone or put it on silence before meetings, meals, and meaningful moments. If you can't turn your device off, turn it to silent or vibrate. If you have an important job, for example you are a doctor or nurse, or waiting for an emergency call, first apologize the others, then leave the room or walk at least 10 steps away and talk quietly. It shows that you know how to use your cell phone properly. <b>A) True / False</b> 36) These days, most people know how to use their phone in a polite way. a) True (...) b) False (...) 37) It is better to turn off your cell phone before meetings. a) True (...) b) False (...) <b>B) Answer the following questions.</b> 38) Why shouldn't you put your mobile on the desk during a meeting? ..... 39) What should you do with your cell phones when you are talking with someone face -to -face?				۱۳

۴	<p><b>Reading 2:</b></p> <p>متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.</p> <p>Suppose that you have a very small vocabulary. Also suppose that you don't know how to get meanings of new words. When you come across an unfamiliar word, that word may stop your understanding of the passage. Your eyes pause too long on the word as you try to get its meaning. You go back and read the word again, try to get its meaning from the context. As a result, you read much more slowly than you should, and you find that the difficult word is a wall to your comprehension. Suppose that you know many words and you are skilled in finding the meanings of new words. Your eyes move quickly and you read rapidly. You comprehend what you are reading.
